

AN EXPRESSION OF CONCERN

To: ALL SENATORS OF THE AUSTRALIAN PARLIAMENT

I know it is my duty to keep you informed as to **MY WILL** on any matter that comes before the Parliament, or should come before the Parliament.

It is **MY WILL** that various Legislations (Laws), passed by both Houses of Parliament, are NOT in the best interests of Australia, repugnant to my fellow Australians and myself, and therefore, must be rescinded.

Consequences of these various Legislations have included the removal of the inherited rights of Queenslanders, and are causing considerable hardships and anguish to all Queenslanders, especially to Queensland's primary producers and small business owners, and include:

- The loss of OUR Freehold, and leasehold, property rights
- The survival of rural Queensland's towns and communities
- The continuity of OUR rural and regional schools, and other educational facilities
- The employment prospects for OUR young Queenslanders
- The mental health and welfare of OUR rural and regional residents
- The increasing suicide rates in rural and regional Queensland
- The breakdown of OUR marriages, particularly in primary producing areas, *and*
- Will Queensland primary producers, non-urban small business owners and their families become known as the 'Rural Welfare Community'?

It is a question of the Queensland people losing their ultimate right to live their lives in the freedoms guaranteed by the blood of their fathers, and grandfathers, in World conflicts... and, their inherited Australian birthright.

I DEMAND that all elected Queensland Senators attend a public meeting to be convened in a central town in Queensland, at a venue and date to be confirmed, to listen to what their constituents **DEMAND** of their elected Parliamentary representatives.

Should ANY Senator refuse to attend the said public meeting, he/she will be held in contempt of the Queensland people, and I will vigorously campaign against him/her at the next Federal Election.

Yours Faithfully,

(Signature)
